## **DETAILED ACTION**

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the amendments made to the claims filed 2/4/08 overcome the prior art and upon further search and consideration no other prior art anticipates or suggests fairly the combination of structural elements as instantly claimed. The closest prior art of record fails to teach or make obvious a cleaning system for a substrate having a sealed up body forming a cleaning room, a rotating device in the cleaning room, wherein a frame layer and the substrate are fixed on the rotating device, a cleaning device for ejecting cleaner on the substrate in a direction opposite to a direction of the centrifugal forces of the substrate and frame layer, with at least the chamber having a bottom surface facing the cleaning device, and an inner circumferential wall connected to the bottom surface, and connected surface of the chamber being substantially in parallel with an axis of rotation of the rotating device, in combination with at least the remainder of the claim recitations found in independent claim 1. See Figure 4 of Applicant's drawings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Sakata et al. teaches a heat treatment apparatus having a holder, for holding disk-shaped objects.
